It is understood that the committee will not sit after tomorrow, so a great deal of work will have to be crowded into the day and a night session may be held. Super intendent Byrnes, Inspector McLaughlin and Inspector McAvoy and several others have yet to be examined, so tomorrow's committee.

THE TEST MONY. NEW YORK, Dec. 27 .- Inspector Willams resumed his testimony before the Lexow Committee at 11:35 o'clock. Goff called the names of Capts. Martins, Meakim, Washburn and Westervelt. It was stated by inspector Williams that Westervelt was sick. Goff retoried: "Capt. Westervelt was well chough to be at his station two hours ago when subpoemed." "Capt. Meakim has been ill," continued

"Capt. Meakim has been ill," continued Goff, "but the police surgon has testified that his filiness (muscular rheumatism) is not serious enough to prevent his attendance if he desires to come. I shall ask you to call on Capt. Meakim. If he is an honest man and not guilty of corruption charged against him, he will come here and testify. I hope these words will reach him and that he will weigh their significance."

"Now, doctor," said Goff in his sweetest tones, "will you bear this message to Capt. Meakim? Tell him he has been accused before this committee of being guilty of bribery and corruption. It has been stated that he has grown rich on the fruit of this corruption. Now tell him also that if he is an honest man he will come here in obedience to the subponna served on him."

The doctor then left the stand.

Dr. Daniel Donovan, one of the police surgeons, gave a synopsis of the procedure of the police surgeons with regard to men reported ill. The witness said he had reported Capt. Meakim ill.

"It cannot say."
"Was it not when these charges were brought up that your dismissal was demanded by one of the inspectors as an incompetent and disgraceful man?"
"He did nothing of the kind."

A STORY AGAINST COMMITTEE.

A STORY AGAINST COMSTOCK. A STORY AGAINST COMSTOCK.

Goff continued to question the inspector as to the disorderly houses. The inspector admitted that it was his duty to discover and suppress them. This ended the examination of Inspector Williams, and Louis Streep, /a "green-goods" operator, was called. This witness created a sensation by telling a story involving Anthony Comstock.

Streep, 'a "green-goods" operator, was called. This witness created a sensation by telling a story involving Anthony Comstock.

"On May 23, 1889," said Streep, "two indictments were found against me for operating in 'green goods.', Anthony Comstock was the prosecutor. Comstock told me that if I would give up the name of my accomplice I should get off with a light punishment. I refused to do so. Edward Brethal called an gave my wife \$5000 in bills. The bail was at that time \$5000, but was shortly afterwards reduced to \$3000. In August, 1890, I called on Comstock with my brother, who told me that the State indictment would be dismissed on payment of \$1000. Comstock said, 'Mind that the \$1000 is not in the shape of a bribe. It is a subscription to the society." It is a subscription to the society. "I asked whether, if I paid the money, I might-not be brought up at all. On Comstock's promise I paid him \$1000, of which I got \$300 from my brother and \$700 from my printing office at No. 76 Beekman street, which I sold. On the following Friday the indictment was dismissed."

Goff produced the indictments, which bore an endorsement bearing date of September 29, 1890, that the District Attorney having moved that for reasons affecting the administration of the law, the indictments was dismissed.

"Comstock subsequently called on me," said the witness, "to get me to swear that Brethal was an accomplice of mine. I refused, and he threatened to bring me before the United States Court. I asked him for time to consider the matter. Brethal was arrested on the charge of stealing \$100 from the American Express Company. He was brought before Commissioner Shields. Negotiations were carried on with him by Comstock, and he paid Comstock \$1000. The following day he was discharged. United States District Attorney John A. Mott also got \$1000. I was then arrested and employed Lawyer Hess. I told all about Comstock to Commissioner Shields. Comstock was asked to tell what happened in his office, but declined to do so. I was held for trial

ment is as follows: "The National Bank of Commerce has sustained a defalcation by its transfer and coupon clerk, Edward R. Carter, amounting to \$30,000. Carter began as a messen-ger-boy, being promoted from time to time till he reached his present position. Among his other duties he was required Among his other duties he was required to receive all pay coupons and all maturing or cuiled bonds. On comparing a balance yesterday morning, the officers discovered a discrepancy of some \$52,000 which he accounted for by claiming to have paid in error that amount of bonds before their maturity. When asked to produce the bonds he was unable to do so, and admitted his guilt. It is not learned that he speculated or indulged in any vices. He claimed to have used the money in his living expenses.

"The loss, of course, is not a serious one for the bank, which has a capital of \$5,000,000, but the defalication is none the less distressing, as Carter had the confidence of all who came in contact with him."

Assistant Secretary Curtis was of the opinion that the pending currency bill had little, if anything, to do with the matter. The fact that several small holders had liquidated their bonds, he regarded as not significant. In many cases these liquidations, he thought, were for the purpose of raising funds with which to meet obligations falling due January 1. In Curtis's opinion there was no significance in the reported fact that the syndicate had sold only 35 per cent. of their holdings. ### TRINITY'S CHÎMES.

NEW YORK, Dec. 27.—Trinity's chimes more welcome in the glad new year. A year ago at the request of promiyear. A year ago at the request of prominent pew-holders, Dr. Morgan Dix, rector of Trinity Church, announced that the bells would not be rung as customary. He excused his action on the ground that the noise of the crowd surrounding the church drowned the loudest tones of the church drowned the loudest tones of the chimes. The widespread regret occasioned by this announcement moved the rector to modify his order. He signified his willingness to have the chimes rung as usual providing that Superintendent Byrnes would guarantee perfect quiet on the street below. This, the superintendent declined to do, on the ground that it would be impossible to keep a throng of 10,000 or more quiet, especially when the same crowd was bent on raising all the discord and noises possible for a human mind to conceive. This year, however, the silvery-toned belis will again extend a New Year's greeting to New Yorkers.

Dr. Dix has considerably modified his request to the head of the police department. "If Superintendent Byrnes will assure me that he will do all in his power to prevent noises in the streets around the hour of midnight," said he, "I will give orders to have the bells rung. The programme I have in view will take an hour to render, so that the opening notes will be struck at about 11:50 o'clock on Monday night." nent pew-holders, Dr. Morgan Dix, rector

### STATE SOCIALISM.

COMMISSIONER WRIGHT ON THE

How He Expects the Government to Acquire Control of the Rail-roads—A Most Seductive Movement.

It demonstrated to the satis-faction of the public the right and power of the Federal government to send troops into a State for the purpose of protecting Federal interests whether that protec-tion was or was not asked for by the

tion was or was not asked for by the State government.

The chief reason, however, for which the strike was an epoch-making event is in the fact that it constitutes a subordinate element in a revolution which is quietly taking place in this country. He did not believe that either the Federal or State government can or ought to be allowed, as a rule, to regulate rates of wages or prices of commodities. He had no faith in socialism.

or prices of commodities. He had no faith in socialism. In 1887, he said, Congress, at the demand of the shippers of the country, made the declaration that all charges made for any service rendered, or to be rendered, in the transportation of passengers or property on interstate railroads, or in connection therewith, should be just, and every unjust and unreasonable charge for such service was prohibited and declared to be unlawful. This declaration has been sustained by the courts. But this declaration, he said, was emphatically compulsory arbitration; it was emphatically a law regulating the prices of commodities through the price of services.

of commodities through the price of services.

What is the consequence of this, as another step in the silent revolution which '15' taking place. There is now pending in Congress a measure which is State socialism, pure and simple. He referred, he said, to the pooling bill. This pending legislation, Wright declared, is demanded at the instance of the shippers and the railroads of the country, and its passage is being aided by a powerful lobby in their service. The bill provides for a great trust, with the government of the United States as trustee.

"When the first bill to regulate commerce was passed the great and powerful wedge of State socialism was driven one-quarter of its length into the timber of conservative government—which means

wedge of its length into the timber of conservative government which means democracy. The pending bill, the moment it becomes a law, will drive the wedge home and that blow will come at the instance of business and not of labor—entire government control of all the railroads of the country, instead of partial control under the laws now existing.

"This blow will be struck in the most seductive way. It will come through a demand that the government shall take charge of the roads, not purchase them, and out of the proceeds of transportation business, guarantee to the existing stock-holders of the roads a small, but reasonable rate of dividend.

"Under such a seductive movement the stockholders themselves, conservative men, men in this hall now, will vote for the

"Under such a seductive movement the stockholders themselves, conservative men, men in this hall now, will vote for the striking of the blow. All this, as I have said, will be the demand and interest of the railroads, and of the shippers, and not of the labor involved in carrying on the work of transportation, as the demand of today for the enactment of the pooling bill is alleged to be largely in the interest of shippers and of the public welfare."

WASHINGTON, Dec. 27.—Secretary Her-

later phases of the Carnegie armor-plate affairs:

"Mr. Carnegie came into my office and said that he had seen my testimony before the Naval Committee of the Senate, and indicated that if the matter was to go on he would make a proposition that he was willing to do anything that was fair! Mr. Carnegie expressed himself as having the most unbounded confidence in the armor, and said that he was willing to go to any expense to show it.

"I told him that the newspapers had only published a portion of my statements before the committee. I stated to show it. The substance of what that evidence was. I told him that it had been published by the Senate committee; that he should have a copy; that I had given it as my opinion that the Quay amendment, providing that the \$140,000 should be returned to his company, in case the plates named should pass the ballastic test, ought not to pass; that that fine was not imposed on the idea that the plates would not stand the ballastic tests, although I might be mistaken, but whether the plates stood that test or not, I did not think he was entitled to the money, because the fines had been imposed on the company on the ground that it had not made the plates so well as the test would indicate that it could have done. I referred Mr. Carnegie and his friends to that printed testimony, and they left without making to me any definite proposition, and without saying anything about suing the government.

"I told Mr. Carnegie that so far as the debt was concerned, the payment of that fine was considered as a final settlement of the question of damages."

A LEAK.

LINDBLOM ACCUSES THE AGRI CULTURAL DEPARTMENT.

Department and that certain officials and speculators have been working the markets successfully by getting in advance government crop reports. In a special to the Hersid he says:

"Probably Robert Lindblom is not the only Chicago speculator, who believes that the monthly crop reports compiled by the statistician of the Agricultural Department are stolen and madeuse of by operators in the market in advance of their official publication. For years certain operators have had suspiciously accurate information concerning the department estimates of the acreage and conditions of the crops and it often happens that this information is a convenient thing to have a day or two ahead of the other fellows on the board.

"Here in Washing! It has been impossible to overlook fact that certain officials under former alministrations having these crop figures in their possession have grown rich faster than the amount of their salaries would appear to justify. One official is reported to live quite comfortably on his rent-roll. There has been a great deal of gossip concerning the manner in which he made this money, but in an investigation of specific charges some years ago, nothing was proved against him. The obvious facts were dreadfully suspicious, but no proof of guilt could be found.

"Are the crop reports peddled out to speculators under this administration? This is a question which not only Secretary Morton and Statistician Robinson, but a great man Cchicago speculators, are interested in. Robert Lindblom says that they are and that he could prove it if considerations of honor did not forbid. There are some facts which indicate that Mr. Lindblom may be right. On the evening before the statistician's report came out losceretary Morton received a telegram from this same Robert Lindblom saying: "Your report showed that were preported."

Secretary Morton received a telegram from this same Robert Lindblom saying: 
'Your report tomorrow will show 70 as the condition of corn.' Sure enough next day's report showed that very percentage. 
"This was rather startling, but no more so than the incidents of another occasion. 
Statistician Robinson went into Secretary Morton's office with his monthly report. 
What is the condition of wheat?' inquired the Secretary. One hundred and two,' replied the statistician, placing his tables on the Secretary's desk. To the statistician's great surprise Mr. Morton pulled another paper from his pocket. 'Read that telegram,' exclaimed the Secretary, and Statistician Robinson read a message from New York as follows: 'Your wheat report today will show the condition is 102.' These incidents naturally aroused the suspicions of the Secretary and his statistician and they have set on fort an invescion. picions of the Secretary and his statisti-cian, and they have set on food an inves-tigation, but they claim that they have not as yet found the leak."

While a \$50,000 conflagration was raging the fourth parade of the day was formed, and headed for the fire lines. It contained 400 meh, but was increased by as many thousands when it reached the hall. Here inflammatory speeches were delivered by the labor leaders, and Armenian, Polish, Hebrew and French Anarchies, who urged the men to come out and join the strikers. The line of the parade was solase with fireworks, and was headed by a band.

The general strike will not be ordered until this afternoon, and the manufacturers have until noon to restore the former price-list. This strike will affect nearly six thousand men and women, who claim that no compromise will be accepted, and that the fight will be to the end. The contract system now in vogue in the larger factories, which keeps the foreign element down, must be broken, says the men, or it will extend throughout the shoe works. The strikers were orderly, and no sort of violence was reported.

Freedom of Trade to be Granted by Spain.

The Spanish Government Thereby Hopes to Avoid Trouble with Unele Sam.

The General Purpose is to Give the Island Officials Advisory Pow-ers—The United States Cannot Wait.

Associated Press Lensed-wire Service.

WASHINGTON, Dec. 27.—The government of Spain, in an earnest desire to evade the threatened tariff war between Cuba and the United States, has underserious and favorable consideration the cession to Cuba of the privilege of arranging her own revenue budget, including tariffs with the United States. This Cuban budget is to be subject to the approval of Spain. The negotiations now progressing at Madrid are partily on these lines, but the State Department authorities are proceeding, nevertheless with their retallatory plans, as they do not believe that Spain's concessions to Cuba can be carried on and made benedical to us for some months to come. The significance of the matter in its commercial and political aspect's fully realized.

It is said that Spain will be careful not to relinquish her sovereignty over the island, nor to permit this to become the first step toward Cuban independence. For that reason, the contemplated privilege will not include full "home rule." The general purpose is to give Cuba advisory powers. Her local officials will take up the economic necessities of the island, estimate the needed revenue from tariff duties, and advise the Spanish government of duties that should be levied and of other measures which ought to be taken, in order to secure the best results for the island.

While Spain would thus retain complete sovereignty over Cuba, it is suggested that the home government would, as a rule, approve Cuba's revenue budget with the United States. ### THE MISSING COLLIERS.

### Vague Rumor from Amphitrite ed Press Leased-wire Service

SAN FRANCISCO, Dec. 27 .- It is now wenty-one days since the steam colliers atserrat and Keweenaw sailed for Sar Francisco from neighboring ports on Van-couver Islands, B. C. Nearly all seafaring men believe that the two vessels and their reews, numbering nearly sixty men, were lost in the recent gale which broke in all its fury on the night that the colliers put to sea.

Notwithstanding that the steamers are long out on a voyage that should have been completed within four days, some of

so long out on a voyage that should have been completed within four days, some of the owners and consignees and some of the families of the threescore of luckless mariners still have hopes. In response to their earnest appeals the government bas sent out another steamer to search for the missing vessels. The United States gunboat Bennington went to sea this evening under instructions to proceed northward and make thorough search for the missing vessels. The United States revenues cutter Grant, which was dispatched from Fort Townsend on a similar errand several days ago, is still at sea.

Those most interested in the fate of the two cutters were somewhat discouraged today by a vague rumor that comes from an Indian camp on Amphirite Point, on the west coast of Vancouver Island. The Indians say that on the night of December 15, during a terrible storm, their attention was attracted by rockets at sea and dimly through the darkness they saw a big black steamer founder about a mile off above. The vessel lay helpless in the sea and drifted northward out of their sight. If the story of the Indians be correct and the disabled craft was either of the missing steamers, she must have been drifting off Cape Flattery for nearly a week.

The brig Courtney Ford, which put in

the missing steamers, she must have been drifting off Cape Flattery for nearly a week.

The brig Courtney Ford, which put in here in distress yesterday, reports that on the night of December 7 she sighted the Keweenaw near Cape Flattery, just as the storm was coming on. The Keweenaw had slowed down, seemingly somewhat disabled, and was slowly putting out to sea. Nothing has yet been heard from the bark Dominion, twenty-two days out from this port for Puget Sound, or the bark Columbia, now out twenty-one days from Port Blakeley, with lumber for this port. The known record of the storm to date is four sailing vessels wrecked and abandoned, one disabled and several badly damaged. The crew of six men from the wrecked schooner Garcia are still missing. Anxiety is again beginning to be felt for the safety of the schooner John F. Miller and her crew, which left Portland twenty-four days ago for this port. She was sighted off Cape Mendocino a few days after the storm had spent itself, but she was then somewhat disabled, but able to take care of herself. On Christmas day she was again seen about ten miles west of the Farallones, but she appeared then as though she had lost her sails. Since then, a strong northeast wind has been blowing, and schooner has by this time been driven far out at sea, and it is impossible to tell whether she will be able to work back toward the land in her disabled condition. The small coasting schooners seldom carry more than fifteen day's provisions.

day's provisions.

As soon as word was brought that the John F. Miller was off the Farallones the tug Hercules was sent to her relief with an extra supply of provisions on board, but it was two days after she had been seen and when the tug reached the vicinity

the schooner was nowhere in sight. The east winds had blown her away from the land, and the crew by this time are in all probability feeling the pangs of hunger. The coal-laden bark Sea King, which was also out in the storm and was reported on Christmas day as being fifteen miles north of Point Reyes, has also been driven out to sea by the strang winds from the east. Tugs have been out searching for her since the news of her close proximity to port was brought in, but they have not been able to find her within a hundred miles of the harbor. It is not thought she will be short of provisions, and no uncasiness is felt for the Sea King on that account.

The ship J. B. Brown, another of the overdue fleet, was reported as sighted on Sunday last about 150 miles northwest of Mendocino, and it was thought she, like the schooner John F. Miller and the bark Sea King, would have been in port today, but none have appeared.

### THE TEACHERS

## Election of Association Officers-The

SANTA CRUZ, Dec. 27.—There was a large attendance at the session of the California State Teachers' Association today. The morning session was devoted to a discussion on mathematics, as it is pro-posed to issue new State textbooks on arithmetic.

In the afternoon it was decided to hold

posed to issue new State textbooks on arithmetic.

In the afternoon it was decided to hold the rest of the session in Oakland, there being no opposition. Election of officers resulted as follows: President, Earl Barnes of Stanford; vice-presidents, F. P. Russell of San Jose and H. F. Pennell of Chico; secretary, Anna Murphy of Sacramento; assistant secretary, W. F. Hall of Vacaville; recording secretary, Prof. McClymonds of Oakland; treasurer, Bessie Haslam of Santa Cruz.

In response to telegrams from Denver asking the teachers to attend the session of the National Educational Association in that city in July, the secretary was instructed to make a suitable reply.

Prof. Bailey of the State University read a paper on "The Teaching Force." He said that there are grades of development in history, society and the individual. Each of these grades is relatively perfect if it is healthy. The philosopher is nearer the ideal than the honorable merchant. Every man ought to be relatively perfect. If he would be healthy his faculties must develop at the proper time. The good citizen, specialist and philosopher are the types of manhood to follow. From these should come the teaching force.

Prof. Bailey explained what he meant to convey by character, power and scholarship. The instincts of individuality must be cultivated. The soul is an organism: therefore it needs air, food and exercise. The teaching force needs the education of individuality. Teachers should grow up in an aesthetic atmosphere. They should feed on sight and sound and exercise their agsthetic powers. In mastering a speciality, power becomes master of itself. All teachers should be specialits in interest, tact and sympathy. They should study the school world of today.

Prof. Brown of the State University spoke on the ideal curriculum. He said that it was desired to have the same subjects discussed at all teachers' institutes and report the result at the session of the State Association. By that means the teaching por the result at the session of the State

teaching by a uniform system might be accomplished.

Prof. Pierce, principal of the Los Angeles Normal School, spoke on "The Teaching Force." Among his observations were: "To do successful work of any kind one must have three elements of strength. Pirst, he must have some knowledge of the material on which he is to work of the tools which he is to use; second, he must have some knowledge of the underlying principles that govern his work which knowledge necessitates his taking note of what others have done in the same line, of their successes and failures and the causes that led to them; third, he must have power and skill to apply his knowledge."

edge."
Prof. Price with the above for his groundwork, made an interesting address. His argument was, however, mainly a plea for normal schools as the principal source of supply, and urged the necessity for general culture in the preparation of a

eral culture in the preparation of a teacher.

This evening Irving M. Scott lectured to a large audience in the Congregational Church on "Big Guns and Armor Plate." Tomorrow evening a reception and hop will be given to the teachers at the Pacific Ocean House.

The California Science Association will begin a two-daya' session tomorrow. Prominent scientists from all parts of the State will be present. In the evening Prof. Le Conte will lecture.

Thompson and his mistress lived in this city for a short time, putting in his time around the gamblinghouses. His wife followed him here, and he took the child and his mistress and he took the child and his mistress and heft the city, no one knowing where he went. Mrs. Thompson recently heard that he was living in Butte, and, taking a detective with her, she went there, and when Thompson and his mistress were absent from home, kidnapped her child and at once started for the East. She will remain in this city for a couple of days.

## THE MISSIONARIES

### Forty-eighth Annual Report of the Congregationalists. Associated Press Leased-wire Service.

BOSTON, Dec. 27.—The forty-eighth an-nual report of the American Missionary Association of the Congregational Church was made public tonight. The association expressed the confidence that Austin, Tex. is to be an educational and religious center

expressed the conduction that Austin, 1ex., is to be an educational and religious center for the great Southwest.

The association is one of the pioneers in mission service among the Chinese immigrants to California. The statistics of Chinese work up to date are: Schools, 21; missionaries (11 of them Chinese,) 64; pupils, 1201; ceased from idolatry, 197; give evidence of conversion, 178.

The expenditures of the association during the year has been: In the South, \$243,234; for Chinese, \$13,200; for Indians, \$43,546. The grand total of receipts for the year was \$404,776.75. The contributions from far Western States are: California, \$5863.10; Oregon, \$143.23; Colorado, \$450.10; Washington, \$73.37; Montana, \$45, and Utah, \$7.10.

### A Fight Over Craps.

HELENA, (Ark.,) Dec. 27.—At Hillhouse, Miss., a few miles south of Friar's Point, several negroes playing craps quarreled. Pistols, guns and knives were freely used. During the melee Louis Allen shot four negroes. Two were killed outright, and two were mortally wounded. Allen received a mortal wound.

### For Steel-workers.

PITTSBURGH, Dec. 27.—A new scale of wages for the Edgar Thompson Steel Company has been presented to the men. An average reduction of about 15 per cent. is made. Common labor is reduced from \$1.30 to \$1.20 per day. Two thousand employees will accept the new scale.

### ST. JOHN'S BANKS.

### The Directors and Managers of One

Concern Arrested. ST. JOHN'S (N. F.,) Dec. 27.-The directors and managers of the Commercial Bank were arrested today on warrants issued by Judge Conroy. They are charged with presenting a false statement of the bank's condition at the last annual meeting, by indicating among the assets' se-curities which were hypothecated to the

curities which were hypothecated to the London and Westminster Bank' to offset overdrafts. Warrants were issued on the initiative of Dr. Skeiton of the board of trustees, the board authorizing them.

The directors are: A. F. Goodridge, expremier of Newfoundland; James Goodfellow, chairman of the board of directors; E. J. Duder, George A. Hutchins and James Petts, ex-Cabinet Minister. Petts is from Nova Scotia. The manager arrested is Henry Cook. Bail will be accepted for all prisoners. No allegations are made of personal misappropriation and some leading lawyers of the city say the arrests are on a mere technicality.

### THE BOND SYNDICATE.

It Dissolves After Disposing of the Securities.

NEW YORK, Dec. 27.—The United States government bond syndicate has dis-solved after disposing of 35 per cent. of the bond issue. The remaining 65 per cent. has been divided among the members. The new currency plan, it is believed, inment bonds, which caused timid holders to ispose of their bonds, and caused a de line below the syndicate price. The new ssue is now quoted at 117½@118.

### A Fight with Yaquis.

GUAYMAS, (Mex..) Dec. 27.—A band of Yaqui Indians visited the ranch of Julio Gardena and massacred him, his wife and two children. Government troops went in pursuit, and it is reported they had a skirmish, in which several Yaquis were killed.

The National Bank of California is one of the few banks that successfully stood the shock of the late panic and maintained full coin payments right through.

The National Bank of California pays no interest on deposits in any form, offers no special mulcements for business other than reliability when the customers exercise their right to demand their money.

In the matter of loans it looks more to reliability than high rates of interest, and desires on oans except from good and reliable parties, and then exacts good security, believing that no bank is better or more reliable than its loans

LOS ANGELES, Dec. 27, 1894.

A new enterprise which will extend the market for Southern California fruits and vegetables is about to be established in this city in the ahape of evaporating works, which will handle, besides fruit, such vegetables as potatoes, turnips, parsnips, squashes, etc. The manufacture of such goods is an important industry in Europe. They are largely used on board ship, at mines and other places where fruits and vegetables are scarce or where it is desirable to pack everything as compactly as possible.

NEW YORK MARKETS.

Shares and Money.

Associated Press Lensed-wire Service.

NEW YORK, Dec. 27.—Speculation on the Stock Exchange reached a point of extreme stagnation today, the total sales being less than has been done in a single hour on a fairly active market. Only the small traders entered into the dealings, which were for the most part for the account of the short interest and to close out long contracts which showed a profit. There were occasional bear raids, confined chiefly to Sugar and New Jersey Central. Reading was in demand at the opening, but the stock was supplied so freely that the demand quickly ceased, and later in the day the stock was sold on rumors of a probability of the withdrawal of the plan of reorganization. New York Central, which showed signs of weakness in the early dealings, was sharply advanced on the declaration of the regular dividend by those who wished to cover contracts in anticipation that the dividend would be scaled. The quarterly report of the company issued today was very favorable, showing an increase in net earnings and surplus. On selling, New Jersey Central declined only fractionally. The announcement of the dissolution of the government bond syndicate which took the entire issue of new 5 per cents. 46.25 loday was very favorable, showing an increase in net earnings and surplus. On selling, New Jersey Central declined only fractiomally. The announcement of the dissolution of the government bond syndicate which took the entire issue of new 5 per cents., had no effect on the share speculation. The general market moved independently of the syndicate, the bonds receding to 117½, which is about the price current at the time the new issue was floated, while the syndicate selling price was 119½. In announcing the disruption of the bond trust, a fling is taken at the Treasury Department, the action of which on the currency question is declared to be the cause of only 25 per cent of the issue. The remainder will be apportioned to the members, according to their original subscriptions, to be disposed of individually. At the opening of the market a generally firm tone prevailed, and some shares showed an advance on the opening figures of yesterday. The market soon became heavy and dull, but railled a fraction after 11 o'clock and continued fairly firm on a very light business until 2 o'clock. Then came a raily and at 2:30 o'clock the tendency was downward, continuing during the rest of the day, and the market closed weak. Compared with yesterday's closing prices, the final sales of today are very irregular, but a majority of the list 2 lower. The bond market was genrally weak during the early session, but in the letter trading a liberal distribution of buying orders resulted in a material advance in some issues, and the closing was in good tone. The total sales were \$1,070,500, of which \$156,000 were Atchison 4s.

rey in the chair and Directors Koepfil, Newmark, Salkey, Meyberg and Jevne present.

On motion to appoint a committee of five to propose names for a nominating committee for the appointment of officers for the ensuing year, the president appointed Messrs. Koepfil, Newmark, Salkey, Meyberg and Jevne as such committee.

The following amendment to the constitution was offered, to be acted upon at the next regular meeting, which takes place next month:

"At the last annual directors' meeting, the president shall appoint a committee of four, consisting of two directors and the regular members of the association, who shall hand in the names of nominees, at least twenty days prior to the annual election of officers, and the names thus decided upon, should be at once made known to the members of this association. Any ten members shall have the privilege of placing before the association nominees of their own choosing, provided they do so at least fifteen days prior to said annual election."

On motion, the secretary was instructed to inquire of the Electric Light Company, what action they proposed taking in order to reimburse the succession.

Fell Through a Trestle.

Jeremiah Murphy, a zanjero belonging to reservoir No. 3, was taken to the Receiving Hospital late last night and treated there for a couple of broken left ribs.

From all indications, Jerry was out on a little spree, and on his way home made the error of walking on the Santa Fe Railroad bridge instead of over the foot bridge at Bueria Vista street. As a result of this little miscalculation he fell through the ties fifteen feet to a pile of rocks below and damaged his person to the extent above mentioned.

His groups and cries attracted some person. voir No. 3, was taken to the Receiv-

His groans and cries attracted some passing railroad men, and a friend of his telephoned for the patrol wagon. The man may be internally injured, but Dr. Bryant thinks his broken ribs are all that he sufters from Thrown from His Horse.

The insinuation that more than 500,000,000 bushels was raised had a depressing effect, and May wheat, which started at from 58%,965%, dropped wearily to 58% before buyers again came forward in sufficient numbers to rescue it and turn it upward again. After the first decline to 58% there was a period of lazy fluctuations between the latter price and 58%, followed by a short interval of greater strength during a second or two in which 58% was freely bid. The publishing of Bradstreet's visible-supply statement caused the market to weaken a trifac because it represented an increase of 650,000 bushels in the visible supply of the world. Closing cables were firm. The aspect of the market underwent an entire change in the last half hour of the session. CHICAGO. Dec. 27. — The wheat market opened firm at a small fractional advance on yesterday's closing prices. The foreign exchanges had resumed operations and sent quotations indicating firmness. A plentiful fall of snow covered the entire country from the Rocky Mountains to the Atlantic coast and receipts at the two principal Northwestern markets were light. Chicago also had smaller receipts. The Cincinnati Price Current remarked that revised estimates indicate 350,000,000 bushels of winter wheat and 65,000,000 bushels spring wheat for last year's crop. The insinuation that more than 500,000 bushels was raised had a depressing effect, and May wheat, which started at from from a Winchester. Jack Mahara's Experience with a Band of Train-robbers in

Arkansas. Shot Square in the Forehead, He Yet Lives to Attend to His Ordinary Business

The skull of the ordinary individual is not impervious to a bullet fired from a Winchester rifle, but there is a man now in the city who is, apparently, not subject to the laws which regulate the ordinary individual. He turned the course of the bullet with the frontal bone, and, though pretty well done up, to use a common phrase, he suffered no persentation.

government mule. His head was swathed in bandages that altogether changed his appearance, which, in form and feature, is rather attractive. Mr. Mahara acts as advance agent for his brother's minstrel company, and it was while on the road, in the course of his professional duty, that he had his unpleasant experience. "Yes, I'm de guy as was done up by the road agents," he said, in "sponce to the query as to his identity. "You see, this is how it was," said he, as he began his narrative. "When the forces at Coffeyville, Kam, turned out and wiped out the Daiton gang, they didn't make a clean sweep, for Bill Cook was left. He's a half-breed Cherokee Indian, and a toughte from way back. After the Daitons were packed nicely away in the cemetery, Bill, I suppose, found himself kind of lonesome, so he gathered around him fourteen or fifteen fellows, just as tough as himself, and they opened business at the old stand.
"It was on October 20 that I got plugged in the head. We were going through to Fort Smith, Ark, when, about 9 o'clock on the evening of that day, the train was side-tracked at Caretta by the gang of read agents. The first thing the passengers knew was when the train smashed into a lot of boxcars, derailing the engine and throwing everybody about pretty lively. At the same moment, almost, there was such a shrieking set up that we all thought—had broke loose, sure pop, and we were going to have a taste before our time. Then the festive Billy and the others began to shoot. You may think it was a lively time when 300 shots were picked out of the woodwork of the cars next day. "How many were hurt? Not a solitary one, s'elp me, Bob, except myself, fut then I don't kick, for that's just my pig-headed

The express companies won't carry money through that country, but they got about \$700 all the same, and a whole lot of jew elry. A passenger was made to carry sack through the cars and into this was dropped the plunder. Having got all they could get they whooped things up again let fiy a few more shots and made off."

Mr. Mahara's experience is rendered somewhat interesting by the curious nature of the wound inflicted. It might be possible for an administration to make a bigger mess of the financial and commercial business of country than the Cleveland administration has done, but it is difficult to conceive how such could be the

Take, for instance, the sugar business. The bounty upon American sugar, which promised within a few to make this country independ nt of the world as far as sugar pro duction is concerned, has been re moved, with the result that a number mising enterprises that were or foot have been abandoned, and instead of having half a dozen beet sugar factories in Southern California as we might have had, there is only one. At the same time the people get no benefit. Several sugar refinerie have been closed down, throwing thouis of men out of work. had at Washington one of the most disgraceful scandals in connection with the fixing of the sugar schedule that has ever been known there; we are threatened with a rupture with Spain, Germany has retaliated by keeping out American mest, in consequence of which a war is threatened between the sugar men and the meat men, the latter of whom are said to represent

Gold flows end then there is a bond issue, which s not help things a little bit, for the only people who profit by that are the investors and their agents. Now, to climax, Cleveland & Co., celebrated quack doctors, are preparing to tinker with the currency, so as to give the banks a little re. Outside of this it is difficult to what possible good can be accomed by the proposed measure. It is the backward step to give the banks more power to make money. It is the e who have devoted thought to the abject, and are not interested in any financial institutions, that it would be od thing to abolish the power ich they now have and let the gov ernment issue all the money. Cerainly, if there is one function of nment that is natural and reaable it is the issuance and contro of the circulating medium of the coun try, whether that medium be made of or silver, or nickel, or bronze er. Certain it is that the Carscheme to permit banks to issue without the government being every dollar of it, will prove al failure, and may result in ating a financial panic. The nent already makes its metal when there is no real ground for dis-pute between employer and employed. It is to the interest of so-called "labor

leaders" to stir up industrial disputes for thereby they are afforded an opportunity of appearing to do something to earn their salaries. The contribuwrung from wage-earners by these agitators are often paid at the expense of the wives and children of men who can ill afford such expenditures. Money received under such circumstances is money obtained under false pretenses, and the hired "walking delegates" and "boycott managers" are little better than thieves. Los Angeles wage-earners have known some of them to their sor row. But weak human nature likes to be humbugged, and so the labor agi ator flourishes in the land.

The treasury continues to lose gold rapidly. It is being drawn out not only for export, but for domestic hoarding. It is probable that, as Representative Walker of Massachusetts recently said on the floor of the House, the drain is not due so much to a normal export movement as to "the growing feeling of insecurity lest a bill so subversive of existing financial conditions as the Carlisle scheme may be passed by this Whatever may be the theoretical cause of the drain of gold from the treasury, is a stubborn fact, which can neither be explained away nor ignored. It is a condition, not a theory, which conronts the administration. A condition of incapacity.

County Superintendent of Education Seaman Trying to Collect for Wages as Secretary of the Board.

A rather pice point of conflict threatens A rather nice point of connict threatens to develop between W. W. Seaman, County Superintendent of Schools, and the District Attorney's office. On the 15th of the current month the superintendent filed with the Board of Supervisors demands aggregating \$960, being compensation for services as secretary of the County Board of Education during the previous three years.

aggregating \$960, being compensation for services as secretary of the County Board of Education during the previous three years.

These claims being referred to the District Attorney for investigation, he filed a lengthy opinion on the 24th ult, wherein he contends that claims one and two, for services rendered during 1892-93, were barred by limitation of time when filed, and that the items constituting claim No. 3, down to and including December 9, 1893, are also barred. The remaining claims of about \$260, from that date on are pronounced \$to\$ be within the date of limitation and should be allowed.

To this opinion of the District Attorney, the County Superintendent excepts, to use a legal term. He maintains that the question as to the payment of services rendered as secretary of the Board of Education has been a much-mooted one throughout the State; some District Attorneys favored such a course, others were adverse to it, and in this latter class appeared the District Attorney of Los Angeles county. For this reason, Mr., Seaman has stated, he refrained from making his demand on the Board of Supervisors at the ordinary and regular intervals.

Last October, however, the question was settled once for all by the Supreme Court which, rendered a decision in the case of the Superintendent of Schools in Yolo county, who demands only to find the officer knocking him out by taking refuge behind the statute of limitations. Naturally Mr. Seaman is not easy in his mind, and thinks that as he refrained during the last three years from filing his demands in deference to the opinion of the District Attorney, filed his demands only to find the Officer knocking him out by taking refuge behind the statute of limitations. Naturally Mr. Seaman is not easy in his mind, and thinks that as he refrained during the last three years from filing his demands in deference to the opinion of the District Attorney, which opinion, however, has since been overruled by the Supreme Court decision referred to, it is rather hard that the legal lum The law fixes the salary of the County

Superintendent of Schools at \$3000, and Mr. Seaman claims that he is also entitled to traveling expenses, when on official business, up to a limit of \$10 per district. That limit has, he claims, never been approached during his term of office. The most expensive season the cost averaged about \$6 per district, and then only be-cause of the rain necessitating increased horse hire. What action the Board of Supervisors

may take in the premises remains to be seen, but meantime Mr. Seaman is pa-tiently waiting developments before taking any further action.

### MINING NEWS.

Some Recent Developments in the Morongo Mining District.

Morongo Mining District.

A Christmas present of a substantial nature has been presented to the shareholders of the Rose mine in Morongo mining district. The richest gold strike yet made in this mine was struck at the depth of 425 feet. The importance of the strike is of great value, more so because of the solid nature of the ground. This ore has been struck at a greater depth than on any mine in this part of the country, and proves a great deal to the mine-owners on San Bernardino Mountains. There are a large number of mines in a radius of ten miles of the Rose, notably the Black Hawk group of mines, Budd Doble Company's new mines, the Altuma Mining Company, the Morongo King Mining Company, the Rattlesnake Canyon mines and a host of others too numerous to mention. Striking a rich body of the strike denty will give confidence to

you mines and a host of others too numer-ous to mention. Striking a rich body of ore at this depth will give confidence in the ore bodies going down, which means a great deal to the mining operators. It is to be hoped that the Riverside owners will put a competent mining man at the head of affairs, pay monthly and give their miners good grub. It is only a wonder to the everteened which we have give their miners good grub. It is only a wonder to the experienced mining man that the mine has pulled through with the past management. The Altuma Mining Company has had a contract just finished which gives them renewed confidence in their properties. A tunnel on the ore bodies and an upraise to the surface from the depth of 100 feet showing pay ore all the way. It is the intention of the company to sink 100 feet more on this which will give them 200 feet in depth. This shows much better mining sense than putting up reduction works with only about one hundred tons of ore on the dumps.

A report which was started Wednesday evening and quite widely circulated yesterday was to the effect that Officer Romans had been shot by a tramp whom

he was trying to arrest, and that both were seriously injured. Mr. Romans knows of no such episode, and all efforts at tracing the origin of the story have been without ayail. It is likely that the rumor was an outgrowth of the reports received concerning the burgiar killed at Santa Ana, or the injuries sustained by Mounted Officer Woodward a few nights since. The latter was one of the posse which pursued the Mission-road robber Saturday night, and just after the capture of the suspects he alipped on a stone in the dark and fell, spraining his ankie. Rev. Mr. Tracy's Eloquent Lecture at Simpson Tabernacle.

A much larger audience than usual was present at Simpson Tabernacle last night, to hear Dr. Tracy speak on the theme, "The Power of Appetite." Among his remarks the evangelist said:
"I am not egotistical enough to imagine that I can tell you anything on this subject which you do not already know, for it has been canvassed on all sides and all points. I am here to preach the same old story, on the same old subject, for the good—I hope—of the commonwealth of California.

"You know, and I know of the existence of the horrors of the liquor traffic in your city. I shall not be able to portray all of the blackness of the drink habit, but I want you to watch the stray shots which are fired tonight, and perhaps you may be hit by one that will do you good.

"Moderation is one of the arguments put forth in favor of indulgence in drink. Some men can drink that way, but others cannot, and some are fast in the grasp of this demon. Come forward, you moderate drinkers, who can control your appetites, and let me ask you to remember Daniel Webster, who held thousands of his countrymen enthralled by his eloquence, he got beyond moderation.

"Your manhood has nothing to with it. The theory that a man ought to be able to take a drink or let it alone has brought more curses on mankind han any other theory ever put forth in this land."

Dr. Tracy's portrayal of the crime and horrors attendant on this habit was very graphic, and showed a long study of his subject.

The sterepoticon views, bearing on the thory were appropriate and interesting.

### **BOILER INSPECTION.**

THE ORDINANCE IN THE INTER EST OF PUBLIC SAFETY.

It Will be Enforced so as to Work no Hardship on Any One— Some of the Safeguards

As has been heretofore published, the City Council lately passed an ordinance under which the Mayor has appointed ar inspector and two associates, the three constituting a Board of Engineers, whose duty it is to protect the public from un safe elevators and from explosions of steam boilers by reason of either their de-fective condition of the incompetency of

fective condition of the incompetency of the engineer in charge.

The propriety of the ordinance is apparent to every one who gives any thought to the great numbers, who, as amployees or otherwise, every day risk their lives about the hundreds of steam boilers scattered all over the city, or on the elevators in the high buildings. Two men in this city are now lying maimed and who barely escaped with their lives from a falling elevator not a week ago. A well-made

city are now lying maimed and who barely escaped with their lives from a falling elevator not a week ago. A well-made steam boiler in perfect running order may be made liable to explosion at any moment by the mismanagement of an incompetent engineer in charge, and all boilers are not only liable but are certain to become unsafe by age and long use. Nothing but a periodical inspection of all these death-dealing appliances by a disinterested official can afford adequate protection to the public from owners who, from thought-lessness and inattention or from a desire to save the expense of new ones or repairs to the old, risk the lives of all who come about the boilers or who use the elevators.

Cities of the size of Los Angeles, both in the West and throughout the East, have protected themselves by similar ordinances. As to its necessity, there can be no two opinions. It is the universal judgment of all that with the increasing number of these useful and most necessary appliances a large population like that of Los Angeles would be reckless of human life if it did not free them as much as is reasonably possible, from danger. If the present Board of Engineers shall enforce this ordinance with good sense and moderation and with a view to securing public safety, but with as little loss and inconvenience as possible to owners and engineers, the plan will commend itself to every reasonable. as possible to owners and engineers, the plan will commend itself to every reasonable citizen and will meet with universa The present ordinance will be given a fair trial before being changed. The Democratic Mayor appointed the members of the present board, as he claimed, solely on their merits, and it so happened that in doing so, he got a majority of Republicans. They deem it their duty in assuming their offices to act in the same spirit that the Mayor did in appointing them; that is, with a view solely to the public good. Engineers and owners of boilers and elevators are a part of the public, and their interests and their wishes, even, are to be consulted so far as is consistent with duty to the rest of the public. The board believes that the following rules have a due regard to all interests concerned, and has, therefore, adopted them.

AS TO ENGINEERS.

AS TO ENGINEERS. AS TO ENGINEERS.
First—Engineers who are in charge of boilers and have been for some sufficient time, say six months or more, will be deemed to be practically qualified to continue in charge of the same, although they may not have that theoretical knowledge of steam that every first-class engineer ought to possess, and they will, on request of their employers, be granted a license to continue in their present employment.

license to continue in their present employment.

Second—Engineers whose qualifications, although moderate, are yet reasonably sufficient for managing small boilers, will be granted licenses to have charge of any boiler not exceeding 100-horse power.

### Dole too Economical for Hawaiians.

The Lavish Expenditures of the Palace Regime Suited Them

A New Story About Liliuokalani and the Provisionals' Heads An Alleged Strong Feeling Against Annexation.

SAN FRANCISCO, Dec. 27.—A special the Examiner from Victoria, B. C., say that it was learned in an interview with a well-informed authority recently in Honolulu that an important cause of the dissatisfaction in Honolulu is the niggard-liness of President Dole and the Cabinet. Dole, though receiving \$10,000 a year, does not spend more than \$1000, while under the Royalists' regime the Queen and her supporters were most lavish.

A misinterpretation had been placed on

A misinterpretation had been placed on Liliuokalami's position toward those who stirred up the revolution. She did not de-mand their heads. United States Minister Willis, who was friendly to the pro ser Willis, who was friendly to the pro-visional government, waited on the Queen and, the conversation turning on amnesty for the revolutionists in the event of her restoration, the Queen said that she must have time to consult her advisers and be governed by them and the law. To this the interpretation was given that she must have their lives.

the interpretation was given that she must have their lives.

After this Willis went to Dole and demanded that the government be turned over to the Queen. It was understood that in no event would the American ressets resort to arms. Some of the men now in power were in the Queen's service, and the moment that they see a prospect of a change they will desert to her. Others who see that they can make nothing, will stand by the present system. A majority stand by the present system. A majority of the natives favor the Queen and are jealous of foreign interference.

jealous of foreign inferference.

A very strong feeling still exists agains annexation to the United States, and ever the members of the American League are not all favorable. However much may be said of the election, it was all one may be said of the election, it was all one-sided, as a majority of the people would not take the oath of allegiance to the new rulers. Money is scarce, as the operation of the McKinley bill has almost destroyed the sugar industry, the Wilson bill only benefits the United States sugar trusts to the disadvantage of Hawaiian sugar-grow-ers, whom annexation would not benefit, because it would make it impossible to employ cheap oriental labor. Should there be any difficulty, it will be before long, and this, the government realizes.

NEW YORK, Dec. 27—The World this Associated Press Leases-wire Service.

NEW YORK, Dec. 27—The World this morning says that Richard Croker has explained what he meant when, in reference to Bourke Cockran, in his statement printed on Tuesday: He says: "If he refuses to come before the committee next time I meet him, no matter where I meet him I will demand a personal explanation." This statement has been generally accepted as being a threat that Mr. Cockran will be in danger of personal violence if he should fail to make a satisfactory explanation of Mr. Croker.

"I did not mean anything of this sort," declared Croker. "All I intended ta convey was that if I did meet Mr. Cockapa, I shall ask him to explain why he has attacked me and to prove the truth of the assertions he has made. I shall in this way give him a chance to set himself right." Croker said also that he would not attend the meeting of executive committee, unless Cockran will be there. He is not a member.

"I do not confine my charges to Cockran," continued Croker. "I invite all my enemies, if I have any inside Tammany Hall, to meet me and substantiate any

of both sides to win will make Saturday's event a doubly interesting fight.

Capt. Downing of the L.S.J.U. team acknowledges that his men were not in good condition on Christmas day, owing to the time taken from their training by the final examinations at college, but he says they are already in much better shape, and, knowling what they have to compete with, he expects them to make a good showing against Chicago, and even rain a victory.

Manager Hicks tilso expressed confidence in his Stanford men, and stated that he looked forward to a victory, though a defeat would not be surprising. He also spoke of the poor condition of the team after the examin ations. THE STANFORD TEAM.

THE STANFORD TEAM.

The personnel of the Stanford team, which will be pitted against the Chicagos Saturday and the Los Angeles Athletic Club New Year's day, is as follows: Center rush W. C. Hazzard Right guard Loet Field Left guard Charles M. Fickert Right tackle Paul Downing (captain) Left tackle Guy Cochran Left end S. W. Cotton Right end Albert Spalding Quarter back William Harrelson Right half Jack Reynolds Left half Jule Frankenheimer Full back M. H. Kennedy The team will be found to have a heavy

Spaiding, though many pounds lighter than Cotton, is more experienced than the latter.

Center-rush Hazzard was born in Indiana and is 23 years old. He is the biggest man in the team. This will be his last year at college and the first year that he ever tried for the "Vtµrsity. Though a green hand at the game, he has shown a strong aptitude for the sport, which Camp's coaching has 'ieveloped. He is powerfully built, keeps his head, but is rather inclined to be slow in passing. In Hazzard, nevertheless, the team has a tower of strength, as the man opposite him will find.

To Hazzard's right is Joel Field, a representative from the "Lone Star State." This is Field's first football season, and his play has been excellent from the first. He is an agressive rather than a defensive man, and keeps an opponent in constant anxiety from the moment the ball is put in play. At breaking through and tacking Field holds an enviable reputation. He is 22 years old, somewhat over 5 feet 10 inches in height, and weighs 180 pounds.

Left-guard Charles Fickert is a native son and hails from Bakersfield. He learned the game at Stanford last season, being a member of the second eleven. This season he has been playing a most, conscientious game. He blocks well, gets into interference and is quick to get on the ball. He is a heavy, powerful man of 21. He weighs 190 pounds and is 6 feet 2 inches in height.

Capt. Paul Downing, '95, who plays left tackle, is the best all-around man on the Varsity. He has played in all Stanford's contests with Berkeley and has successfully held down the positions of half back, quard, center and a tackle. He learned the game at Washington College, California.

contests with Berkeley and has successfully held down the positions of half back guard, center and a tackle. He learned the game at Washington College, California. The beauty of Downing's game is his activity; he is always round right where the ball is. As a tackle he is sure and hard, and bucks a line well when given the ball. He is 22 years old, height 6 feet 10 inches and weighs 178 pounds. Guy Cochran plays left tackle. He is a weteran at the game, which he learned at the Laurenceville Preparatory School. Two years he has played on the Varsity, each year gaining new laurels. He bucks well and is a hard man to get past. Cochran is 21 years of age. He weighs 172 pounds, and is one of the pets of the junior class.

Right end is well protected by Albert Spadding, also a member of '96, which class, by the way, is represented by five men. Albert Spadding is taking physiology as a major. He first played the game in Kansas at a preparatory school. Last year he was a "sub" on the 'Varsity, and in the game with Berkeley he played in place of Capt. Wilson, who was injured. Spalding is a quick, strong fellow, getting down on kicks in fine style and rarely letting a runner past his end. He is a clean tackler, and of late has shown special sbility as a ground-gainer when given the ball. His age is 20, weight 160 pounds, and height 5 feet 8 inches. Spalding halls from Kansas.

Cotton is the only freshman to make

cial ability as a ground-gainer when given the ball. His age is 20, weight 160 pounds, and height 5 feet 8 inches. Spalding halls from Kansas.

Cotton is the only freshman to make the team. He was born at Clinton, Iowa, in 1878, and first played football at Belmont. He was trying for place as tackle, but when Lewis, left end, was compelled to leave the university, Cotton was put in his place, and for a new man he has shown up remarkably. He is one of the speediest big men on the eleven, and ordinarily his tacking is of Al quality. He will make a most valuable man with a little more experience. Berkeley will find in Cotton a hard man to circumnavigate. He is quite heavy for an end, tipping the beam at 177 pounds. His height is a little over 5 feet 10 inches.

Quarter back will be looked after by little Harrelson, the smallest man in the team. "Billy," as he is always called, was born in Stockton 22 years ago, and entered Stanford in his eighteenth year, taking civil engineering as a major. He has been "sub" to the team until this year, but in the last game with Berkeley he took Code's place at quarter, because of the latter's pugnacity.

Harrelson is no mean tackle, and is quite proficient at interfering. He is clearheaded, full of ginger, and always plays his hardest. In a scattered field he is good for many a yard where agility is necessary. His weight is 135 pounds, and his height 5 feet 2½ inches.

Jack Reynolds takes "Star" Walton's place as right half, and does it no discredit. Reynolds is another '96 man. This is Reynolds first year on the gridiron, though he played several times before this year in interclass contests. He has roade his mark as a track athlete, high jumping and in dashes of fifty and loo yards. He is pytting up excellent ball at present,

pounds, is 5 feet 8 inches in height, and is 21 years old.

Julius Frankenheimer, the left half, made a record iast season and the one before as a good-footballer. His dash makes up for a lack of weight, and his grit. fine tackling, bucking and interfering are hardly equaled by any other man in the aggregation. His height is slightly over 5 feet 7 inches; weight 160 pounds; age, 21 years.

The position of full back is filled by M. The position of full back is filled by M. H. Kennedy, whose major study is law. He learned the game at the University of Colorado, and has played for the past three years as full back on the Stanford eleven. He is a fairly good punter, but excels in line rushing and interfering for a runner. He is rapid, level headed and has a large quantity of endurance in his make-up. Kennedy is 24 years old, 5 feet 10 inches tall and weighs 160 pounds.

In case of injury to one of the haifs Charles Dole will be put in, He is a fine runner and a good man.

Among the substitutes are: W. H. Soper, sub. "full;" Jennings and Pauley, sub. ends; Carter and Leavitt, sub. halfs; Code, sub. quarter; Hail and Campbell, sub. tackles; Thomas and Burnett, sub. guards. Burnett can play a good center in case of need. Taken altogether the eleven is strong.

Following are the corrected weights and heights of the Stanford team:

4	heights of the Stanford team:

Hazzard, centor, is the heaviest man on either team. He is a little slow on this account, but gets out into the interference remarkably well for a new man in the position. His weight will act well toward steadying Field and Fickert, the guards, who are inclined to be a little erratic at times. Field's play at right guard has improved greatly during the past two weeks. Field is 21 years of age.

Fickert, guard, has replaced Burnett, who played that position against Berkeley last year. They are both the same height, weight and age, but Fickert is much the more aggressive of the two.

Capt. Downing may be expected to do star work at right tackle. He has only been playing the position for two weeks, but is putting up a brilliant game in practice, and the hope of the Stanford rooters is that Berkeley will line Hunt' up against him just to see some fun. Downing has played every place on the team and each equally well to entitle him to a place in the big intercollegiste match, but he selected right tackle at last in order to rub noses with Hunt in the fascinating fight, which comes off this New Year's day. Capt. Downing is barely 20 years of age, stands 5 feet 9 and one-half inches in height and weighs

Mr. Stagg gives the personnel of the Chicago team as follows:

C. W. Allen, captain and right guard, is 29 years of age, and weighs 174 pounds. He stands 6 feet high, and is one of the most determined players imaginable. He has a splendid physique and indomitable courage, and is, moreover, particularly courage, and is, moreover, particularly well acquainted with every detail of the game. It was he who introduced football into Bucknell College, where he captained the eleven for four years. Allen, besides being full of energy, is extremely popular with the members of his team, and is in every way the right man in the right place.

A. R. E. Wyant, center rusher, is 27 years of age, weighs 170 pounds, and is 6 feet 2 inches tall. He is a member of the theological school, and used to play on Allen's team at Bucknell University. He played center for the team last year, and showed considerable ability, He is a heady player and has unlimited grit. His only trouble is his light weight. He would scarcely have a superfor if he had twenty pounds more to his credit.

W. Rullkoetter, left guard, is the heaviest man on the team. He is 30 years of age, weighs 187 pounds, and is 5 feet 10 inches tall. He has played off and on for three seasons, and has steadily improved.

C. F. Roby, right tackle, is 22 years old, weighs 175 pounds, and is 5 feet 10 inches tall. This is his first year in the university. Last year he played at Notre Dame University, where he established a reputation. He has greatly added to this this year. He is one of the best, if not the best, tackles in the West, He tackles low and never misses his man. He is very quick in getting into the play and in going down the field on kicks.

G. N. Knapp, left tackle, is another veteran player, having had two years' experience at the University of Wisconsin, and this is his third year with Chicago. He is 27 years of age, weighs 170 pounds, and is 5 feet. Il inches in height. He is one of the best athletes in the university. His anthropometric chart shows him to be possessed of the most symmetrical development of any student in the university. He is one of the fastest runners on the team, and is a great man at carrying the ball.

J. Lamy, right end, has played two years on the team. He is 21 years of age, weighs 149 pounds, and is 5 feet 7 inches in height. He is the fastest runner on the eleven, and represented the university in the intercollegiate meets last year. He is a great man at getting down the field on kicks. In his tackling, he resembles Hinckey of Yale, without having the skill of the latter in breaking up interference.

H. G. Gale, left end, has played on the team and is also one of the most heady players. Though not so swift as Lamay, he has a better football intuition.

He has prospects of making a remarkable player. He was unable to play in the earlier part of the season on account of parental objections.

E. B. Hirshberger, full back, is the youngest player on the team. He is also the lightest man, weighing only 142 pounds. He is a born athlete, a splendid high-jumper and pole-vaulter. He is a fast runner, a quick dodger and bucks the line hard. He is also considered the best punter and drop-kicker in this region.

E. M. McCaskell, substitute guard, weighs 184 pounds, and is 5 feet 8 inches tall. This is his first year at football, and also is a freshman, but comes to the university with considerable football experience, which he gained in the South Division High School. He is a hard worker and a good tackler.

W. E. Garry, substitute, half back, weighs 150 pounds and is 5 feet 9 inches tall. He is one of the quickest men on the team. He is a hard, swift runner. He tackles lew and fisercely.

THE OIL INDUSTRY.

MOVEMENT TOWARD COSOLI-DATING INTERESTS.

Interesting Experiments in Prog-S—Compressed Air to Force
Out the Oil in Place of Pumping.

To date the oil industry in this city has been carried on upon lines of individual effort, and without any very coherent plan of action. Not only has the cost of sink-ing wells been thus largely increased, but in marketing the output the lack of unapimity has caused prices to fluctuate all the way from \$1.75 per barrel to as

low a figure as 75 cents.

The local producers are consolidating their interests, and when the much mooted company is formed it is not unlikely that the Puente and Union com-

likely that the Puente and Union companies may join issues.

While such a course will result beneficially to all concerned in putting the oil on the market, there still seems room for improvement in the development of the wells. Upon the question of the oil supply and its permanency riests very largely the possibility of Los Angeles being not only a distributing center but a point where manufactures may be carried on with success. In this connection the series of experiments that have been conducted during the past two weeks by D. P. Thomas at the junction of Lakeshore avenue and West State street, are of interest.

the East and while there he took notice that at the Syracuse salt works, the heavy pumping apparatus was being taken the East and while there he took notice that at the Syracuse sait works, the heavy pumping apparatus was being taken out and air compressors put in. At Newark, N. J., and other points, also, compressors have lately been put up for the purpose of getting the increased flow of water, that by this process can be obtained as contrasted with the ordinary pumping plant. Any one who has witnessed the magnificent spectacle of the geysers spouting in the Yellowstone Park will understand the advantage of air compression when applied to an oil well. True, in the case of the geysers it is a gaseous formation that expels the water in such mighty volume, while it is only air that is introduced to the bottom of the oil well, but the action of both is identical. Mr. Thomas obtained permission to experiment with five wells at the point already referred to. They vary in depth from 80 to 120 feet, and were abandoned owing to the bore having become crooked. The compressor brought from San Francisco has a 10x10 cylinder with a fourteen-inch stroke, and has been worked at a pressure of thirty-five pounds. Inasmuch as the oil in these wells is only seepage, no depth having been attained, the quantity that can possibly be thrown out is small, but nevertheless the wells are emptied in a few moments with the compressed air. Then a rest has to be taken to permit the seepage to accumulate again. Each well is averaging about five barrels per day. According to the estimate made by Mr. Thomas one large compressor, to cost, say, \$2000, would work the entire oil district. In his opinion, after having examined the geological formation of the ground, and the different strata penetrated, the main deposit of oil has not yet been tapped. In such case the outlook for the oil industry in Los Angeles ought to be bright, if improved methods are brought into vegue in every department of the business.

WITH the present improvement in business over th corresponding time last year we are sure to have the prosperous year we have ever had for 1895. Every thing indicates this. Trade is far ahead of a year a Everything will be on a sounder basis from this time for ward. We are still making very low prices in the dress goods department to make room for the new goods and t new prices for the new year. We have again reduced the prices much less now than they can be replaced for. This is to close out everything to make a strong beginning. Renants of silks, remnants of velvets and remnants of goods at remnant prices. These remnants are the goods we want to close out. The prices are made with the object to close them without delay. We have a good line of remnant made during the greatest holiday rush we have ever experi enced. These remnants are extra value as the goods are the better class. The greatest 50c line of all wool dresgoods you ever saw. A great many goods have been re duced to make the 50c line extra strong. It is now the 50c line of all wool dress goods in the west. We are the great dress goods house. We have more than doubled the goods trade the past year. We will double it again the nex year. Our dress goods stock is in prime condition for th new dress goods prices for 1895. We are selling out closupon the same basis we are selling out dress goods. lowest in years. We want to close out every garment in the cloak department. The prices are made to close the quickly. We have a few special bargains in fur capes at greatly reduced prices. Every fur cape in the house is new this season. We will carry over no fur capes. Every one will be sold at some price. It is the same in ladies', misses' will be sold at some price. It is the same in ladies', miss and children's cloaks and capes. Prices are made the lowest to insure the sale. The Christmas trade is over. The prices cannot be maintained. If a price will sell out every cloak the price will be made. We have some grand bargain in new muslin underwear. Specially so in gowns, drawe and skirts. This department will receive great attention th next year.

The usual weekly business was disposed of by the Police Commission at a meeting held yesterday morning.

The Chief presented a report of Sergt. Smith, stating that he had suspended Officer J. F. Maguire. "for disobedience of orders and neglect of duty, by leaving his beat, coming into town and going into Martin's restaurant, on South Main street, at 1 o'clock a.m., December 24, and remaining there until 2 o'clock a.m., then he rode to Hill and Second streets, tied his horse on Hill street, and remained there until 3 o'clock a.m., while on duty." On motion, it was ordered that Maguire remain suspended during December. Edward T. Wheeler presented a complaint against the police officer wearing star No. 1. The complaint stated that he was assaulted on the evening of December 24 by two men, who were in company with a number of others. One of the two was applying the vilest epithets in a loud tone. He asked the officer to arrest the men, but he refused to do so, on the plea that he did not actually see them strike him, but only strike at him.

Unjust censure, it is believed, has been placed upon the work of the City Engineer's office in connection with the present condition of the intersection of Michigan avenue and St. Louis street, Boyle Heighfs. The condition of the ground at the place is now such that storm water-flows toward it along the streets from four directions. This would make it appear that the City Engineer, or one of his deputies, was at fault in not having the grades different, so that the water would run away on one of the streets. The fact of the case is that the grades as officially established are such that the storm water would be carried away as it should be were it not for the fact that St. Louis street south of the intersection has not been graded to the official grade—a fact for which the City Engineer is not to blame—and, consequently, water is backed up at the intersection as it would not be if the

DAMAGE SUITS AGAINST THE SOUTH-

The trial of the damage suit of J. L. starr vs. the Southern Pacific Company, an action to recover damages for the loss of a team and wagon, which were demol-ished by one of defendant's trains near Park station on May 8, 1893, was con-cluded in Department Two yesterday, the jury finding for the plaintiff in the sum of \$181.41. This case was originally brought in the Township Court, but an appeal was taken from Justice Bartholo-mew's decision.

Almost immediately after the Starr case had been disposed of Judge Clark called

another damage suit against the same rail

another damage suit against the same railway company for trial.

The plaintiff in this action was Charles A. Lee, who sues the Southern Pacific Company for \$50,000 damages for the loss of his right leg. He alleges that on November 15, 1888, he was employed as a brakeman on a freight train. While switching some boxcars at Handy siding, just above Saugus junction, he was thrown from the pilot of the engine, on which he was standing, by a defective switch, and was run over.

The defendant attributes the accident to the contributory negligence of plaintiff in being upon the pilot, and further claims that he knew of the defect in the switch

being upon the pilot, and further claims that he knew of the defect in the switch, and the risk he was running.

The case was tried before Judge Clark and a jury in March, 1892, and resulted in a verdict for the plaintiff, whose damages were assessed at \$25,000. Judge Clark, evidently considering these damages excessive under the circumstances, granted the defendant's motion for a new trial. From this order plaintiff appealed to the Supreme Court, but the ruling of the lower court was affirmed.

Four witnesses were examined on behalf of the plaintiff yesterday afternoon, and the matter thereupon went over until this morning.

young negro, was taken before Justice Bartholomew in the Township Court yesterday for arraignment upon the charge of having stolen a suit of clothes and case of surgical instruments at Monrovia on December 21 last, and upon entering his plea of guilty, was committed to the County Jail for forty days.

The complaint against McLaughlin, which was originally filed in Justice Todd's court at El Monte, is one of the most unique documents ever drawn up by a country justice. After setting forth the facts that McLaughlin did steal the property from Dr. D. L. Strode's buggy near the entrance to Barnes's Hall, at Monrovia, the complaint proceeds to explain that the reason he bélièves McLaughlin to be guilty of the offense is that affiant found a surgical knife in the possession of Duncan Shaw, who told him that he purchased it from McLaughlin. This knife being one of the stolen intruments the chain of evidence was apparently complete, and McLaughlin was arrested, but denied the theft. There being no place to keep the defendant at Monrovia, he was committed to the Couinty Jail, and yesterday decided to plead guily, provided he could do so without going back to Monrovia.

THE ELECTRIC ROAD'S RIGHT. OF-WAY TROUBLES.

The Prizes for the Floral Parade Some Society and Musical Events—Briefs and Personals.

PASADEMA, Dec. 27.—(Special Correspondence.) It is stated that after all the trouble about the right-of-way for the electric road through South Pasadena, the matter would be quickly settled, but for one citizen, who insists that before he one citizen, who insists that before he will permit the road to cross a corner of his land, he must have a pass over the road for himself and family for two years. The railroad people demur to this proposition, and another hitch is the result, but it may be adjusted at a special many but it may be adjusted at a special meeting of the Board of Trustee.

THE TOURNAMENT OF ROSES.

The prizes that have been secured to stimulate rivalry among those who appear with flower-decorated rigs in the parade of the Tournament of Roses, on New Year's day are beautiful and costly enough to be an incentive to superior efforts. Mr. Daggett of the committee today caused the prizes thus far secured to be exhibited in the window, of Wetherby & Kayser, where they make a handsome display, comprising Japanese carved ebony table, handsome vases, furniture, silverware and many other things of adornment and utility. The list of the prizes given out today was incomplete and subject to revision. A corrected list will be published in The Times of Saturday or Sunday-THE TOURNAMENT OF ROSES.

A number of invited guests met at the residence of Mr. and Mrs. P. M. Green this morning to hear a rehearsal of the Symphony Club. The brochestra was led by H. B. Hamilton, who plays first violin, and is assisted by four hands at the plano, and Miss Ferris, second violinist; Mr. Wachtel, viela, and Mr. Blair, 'cello. The numbers played today were Schubert's unfinished symphony and Beethoven's Erolca symphony. The plano parts for the former were beautifully played by Miss Greble and Miss Green. In the Erolca, Miss Tyson and Mrs. F. S. Wallace played the first movement, Mrs. William Allen and Miss Lillie Dodworth took the second movement; and in the third, Miss Pearl Smith and Mrs. Vall played.

No Lack of Good Cheer on Christmas

Other Home Notes. SANTA MONICA, Dec. 27.—(Special Cor-respondence.) All unnecessary work was suspended at the home on Christmas day, and religious services were held in As-sembly Hail in the forenom. In the evening there was a free musical and reci-tation entertainment and a Christmas tree; ation entertainment and a Christinas tree; and that none might miss this feature, the programme was several times repeated. Then at noon there was served in the dining hall and hospital such a dinner as left nothing to be desired in the eating fine. Handsome souvenir menu cards were distributed, hundreds of which were sent by the members to friends outside, as assurance that they had been well looked after at Yufetide. The following dishes were represented on the cards and tables, and enough of each for all: Roast turker, createrry and giblet sauce; baked sweet potatuces, mashed potatoes, holled turnips, freal, butter, in ne pie, apples, peaches, nuts, raisins, tea and and coffee. ling rooms of Smith & Son, and the evidence that was brought out was practically the same as that published in The Times this morning.

The dead man's confederate, who gave the name of James Martin, testified that he did not know his partner's real name; that all the name he knew him by was "Jack," that he met h'm first in San Francisco, about six months ago, and that he had seen him a number of times since. Martin would not talk much, and several times refused to answer questions that were asked him by the Coroner and jurymen.

The jury was only out a few minutes, just long enough to frame the verdict that the deceased had come to his death from a pistol shot from Deputy Sheriff Morgan, in the discharge of his duty, and that he was justified in doing as he did. At an early hour this morning J. H. Uterback, who lives near where the shooting took place, came into town, bringing with him some plunder which he found near his house, just before he started for town. He brought in fifteen sliver-plated tablespoons, two dozen teaspoons, three torks and a good laprobe. He says that these goods were found near where the two men separated when the officers first discovered them. It is presumed now that Martin had these goods with him, and when he saw that his capture was probable, threw them away. When he was arrested he had nothing but a small pocket knife and a whetstone in his pocket. The dead man had his pockets full; of silverware and jewelry that he had stolen.

The body of "Jack," the dead thief, was buried this (Thursday) afternoon in the Santa Ana Cemetery, and Martin, his confederate, was taken before Justice of the Peace Humphreys, at a later hour, charged with vagrancy, and sent to jail for thirty days. This was done for the reason that evidence may yet be obtained that will convict Martin in the Wright burglary, and for the further reason that he is believed to be a character that is wanted badly in other localities. He is a tall, dark-complexioned fellow, rather sharp-featured, small, dark mustache, good looking, but was rather shabbly dressed. He looks to be about 25 years old.

A DRUNKEN TRAMP.

A drunken tramp was found choking a small boy, over in the eastern portion of the city late Wednesday evening, by a man named Johnson. Mr. Johnson at once interfered, and laying hands on the obstreperous "hobo," piled him into a wagon and drove him up town. There was a great crowd in front of Smith & Son's undertaking rooms where the remains of the burglar killed by Officer Morgan lay, and the crowd at once surrounded the wagon. the crowd at once surrounded the wagon. The tramp at first took the crowd to be a mob that had come to lynch him, but finally realizing that it was only a crowd wanted to fight the whole town. He began to get ugly and several officers had to lay violent hands on him, and hold him down while he was driven to the City Jail. He was locked up for the night and taken before Justice of the Peace Freeman this morning. He promised to leave the city on a tie pass if given an opportunity, and the same was granted. The last seen of him he was legging it east on Fifth street, looking around only occasionally to see if any one was following him. He gave the name of Frank H. Walsh.

MORE DEPREDATIONS BY TRAMPS.

A Spaniard living down by the Southern Pacific depot came to the officers about 10 o'clock Wednesday night with a story about a tramp who had that afternoon called at his house and asked for something to eat which was given to him by his (the Spaniard's) wife. After the tramp was fed, he made bold to enter the house and began to use improper and indecent language to the woman who had just provided him with food. The Spanish woman ran out of the house and informed her husband of what had happened. The husband came upon the tramp in the yard and ordered him to leave at once, whereupon the insulting "hobo" picked up a brickbat and hurled it at the Spaniard, striking him a glancing blow on the head. The tramp then made his escape before his arrest could be effected. MORE DEPREDATIONS BY TRAMPS

DAZED BY A FALL. Frank D. Hunt, the son of Councilman Charles A. Hunt, was seriously injured late Wednesday afternoon by a fall from a bicycle. He was found in the road by a neighbor and taken to the residence of his father, but was in such a condition that he could not tell what had happened to him. His face was cut and his flesh bruised so that he looked like he might have collided with a railway train or a piledriver. For several hours he was so dazed that he could not tell what kind of an accident he had met with, or where he was going. All that he remembered was that he had mounted his wheel and started for Tustin. Subsequently, however, he recovered sufficiently to remember that he was riding very fast across the railroad crossing when his wheel collapsed, and he was thrown violently on the hard road. He is improving today, and will no doubt be all right again in a few days, except that he will look a little worse for the mishap. Frank D. Hunt, the son of Councilm

The Rhizobius Prospering—Interest in the Grape Fruit.

RIVERSIDE, Dec. 27.—(Special Correspondence.) There is more interest taken in the grape fruit this winter than ever before in this valley. The demand for the fruit in New York and other Eastern points has aroused a desire to supply it from this region, where it can be grown so easily and successfully. The fruit is being planted to some extent, and it is being budded upon other citrus fruits. The largest bearing orchard in this place is, perhaps, that of James Mills, who has taken quite a fancy to the fruit and has produced a quantity of it this season.

THE RHIZOBIUS PROSPERING.

The rhizobius ventralis, about which there is so much discussion pro and con just now, is found to be propagating in this place. State Entomologist Alexander Craw visited Riverside yesterday and examined the orchards in which colonies of this lady-bug had been liberated, and the result is most gratifying to the orange-growers. Young rhizodus and larvae were found quite pleatiful in some of the groves, and Mr. Craw predicted that within a year the little pest destroyer will have so increased as to practically eradicate the black scale.

COURTHOUSE CONTRACT THE

But This Does not Settle the Matter The Supreme Court to Pass on the Questions at Issue.

SAN BERNARDINO, Dec. 27.—(Special Correspondence). Last evening Judge Otis rendered a decision, dissolving the temporary injunction in the courthouse contract case. Chairmair Victor immediately signed the contract, in accordance with the award of the Board of Supervisors with Riley, Lane & Thornton of Los Angeles. This does not end the case, but the decision simply shifts the responsibility onto the new board. The decision permits the signing of the contract, if the Supervisors see fit. All the payments will fall due when the new board is in office, and they and their bondsmen must assume the responsibility of allowing the bills. An application for a permanent injunction, restraining payments on the contract, will come up to be set for hearing January 6, and the case will go to the Supreme Court, whatever the decision is. Mr. Kilpatrick, the contractor, who claimed to be the lowest bidder, is fighting the case with Judge A. Bronson, Judge F. W. Gregg and E. E. Rowell of this city; the contractors by Knight, Simpson & Harpham of Los Angeles, and the country by Dist. Atty. Oster.

The contractors are going ahead, and have already given orders for a large amount of building material. They have only six months in which to complete the contract, and when interruptions by bad weather are liable to be frequent.

REDLANDS.

REDLANDS, Dec. 27.—(Special Correspondence.) The announcement that a committee of ten would be present at the meeting of the trustees last night, to ask for the repeal of the ordinance relating to the license tax, brought out more than the usual number of visitors. The spokesman for the committee was Lawyer Bailey who, in a brief, pointed speech, presented a petition containing signatures, asking the immediate repeal of the ordinance. W. W. Savery, who has been feeling the pulse of the business men as regards the ordinance in question, was called upon, and stated that several whose names were on the petition had, since the city's indebtedness had been made public, signified their desire to see the license ordinance in force until a more feasible way of raising this amount was in view. Harry Watson asked if the city could not be bonded to meeet the floating indebtedness, but this the trustees would not listen to, for a minute. Mr. Glover finally said, in as many words, that, if the city was out of debt by November next, as he believed it would be, the repeal of the ordinance would then take place.

COLTON.

COLTON. Dec. 27.—(Special Correspondence.) Colton people complain that three saloons are too many for a city of 1500 inhabitants, and are making a move to get rid of all but one of them. The plan which seems pretty generally agreed to, is for the City Trustees to raise the saloon license tax to such a pitch that not more than one saloon can thrive under it. Then one of the saloons is to sell out to the others, and these two will unite to make the single saloon. The intention is to have the matter read for action at the next meeting of the City Trustees. The plan is pretty certain to work, for the saloons have not prospered with the present low license.

MUSICAL MENTION.

The piano recital, given by the pupits of Miss Augustine Berger, in Blanchard-Fitzgeraid Hall last evening, was a very pleasant affair. A good audience was present and an excellent programme rendered. Miss Berger's name alone would be a sufficient guarantee for the merit of the performance, and added to this, unlike most pupils' recitals, the participants were well advanced—some of them being teachers themselves—and played in an artistic and finished way. Miss Vira Barker especially showing marked talent. Following is the programme:
Scherzo, F major (Kullak)—Miss Louise Davis.

(a) "By Moonlight" (Bendel;) (b) scherzo, F minor—Miss Lillo Keese.

"Conte de Fee" (Goard)—Miss Vira Barker.
Scherzo, Op. 16 (Mendelssohn)—Miss Clara Bosbyshell.

The Champion Long Distance Cyclist in the City.

Riders of the wheel in Los Angeles are on their mettle, for the world's champion long-distance rider is in the city, and is anxious to get on a match. From 1830 to 1888 Jack Prince held the world's reords for all distances from a quarter of a mile up. but in the latter year he met defeat, and from thence on he has remained invincible on the track only at long distances. He claims the world's records for fifty miles up to 1000 miles, and is out with a challenge to all comers, bicyclists or horsemen, to race ten miles for \$250 to \$500 a side. The race to be run in this city.

While in Stockton three weeks ago Prince sent Shock, who was then in Los Angeles, a challenge to race fifty miles, he conceding a five-mile start. Shock made no reply and vanished out of Southern California.

In October, 1893, Prince captures the English record at Herne Hill, near London, making the time in 1:59, and defeated, also, Keen, Howell and Cooper, English champions. Later he crossed the channel and defeated Terront, the champion of France, and Dubois, also a noted crack.

A Bold but Unsuccessful Attempt at Safe-cracking. bold, but unsuccessful A bold, but unsuccessful attempt was made at safe-cracking at the Peerless saloon on South Main street, between 3 a.m. and 5 a.m. yesterday. The crooks went through the little alley at the right of the building and effected an entrance through a small door at the side. They did this by pushing off the spring-lock catch inside with a cold chisel. Then they twisted two thumb-screws into the crack near the lock to prevent any one following, and the windows being heavily curtained and the glass of the doors ground, they were free from interruption for the time.

THE CHINESE MURDER. An Inquest Held on the Body of the

Murdered Man. Conorer Cates held an inquest on the remains of the murdered Chinaman killed by Luey Lem, whose real name was found to be Lo Leung, and the jury found that the man came to his death at the hands of Lo Leung. The murdered man's real name was found to be Lo Chung, a cousin of the murderer.

Lo Leung. The murdered man's real name was found to be Lo Chung, a cousin of the murderer.

Ging Qoung, the only witness, having recovered from his excitement, in characteristic heathen way, told a different and misleading story from the one first given at the scene of the murder. He told a story about a quarrel over room rent, and said Chung hit Leung in the chest and was reaching for his own pistol when Leung got the drop and shot him dead. The case was called in Justice Seaman's court yesterday, but no interpreter being present it was continued until today.

The officers found that Chung had been running a lottery game of the Hoa Ki (night and daytime) Company, and also an optum layout in connection, and the fact that he had dealings in women and hired Leung to abduct one for him, bears out the Chinaman's first story, as related in yesterday's Times. The officers have watched the house on Marchessault street and are convinced that there is much more behind the murder than has been given out. They all know that Chinamen are constitutional liars, and will swear to anything, so they think the real cause of the murder will never be known until, perhaps, more fighting results, and one gets the worst of it, and gives the story away.

COUNCILMAN-ELECT SAVAGE IN A BAD LIGHT.

Accused of Trying to Intimidate Police Officers and Making Threats-The Summers Case.

Investigation of a report in circulation yesterday developed the fact that a mem-ber of the incoming City Council had been guilty of attempting to intimidate a police officer. Should the punishment of the offense be pressed it is possible that Tom Savage may not be the Eighth Ward representative in the new municipal legisla-

On last Sunday J. W. Summers, better known as "Craig" Summer, was arrested by Police Officer Conley on a warrant charging him with vagrancy. Summers is a notorious "mac," he being one of the disreputable class who live on the earn-

ings of prostitutes.

After Summers had been arrested in quiry was made of one of the police judges regarding the amount of the hall that would be required for his release pending trial, and it was found it would be \$50. Thomas Savage was seen in the saloon kept by one Jean Lenert on Ferguson al ley, endeavoring to raise the \$50 for Sum mers's release, and it is known that not long after that Summers was released on a deposit of that amount being made.

On Wednesday evening Savage approached Officer Conley on Main street and called him to one side. Savage then proceeded to ask Conley to "let up" on the prosecution of the charges against Sum-

This Conley informed Savage he could ot do. The case had been set for trial Saturday afternoon and subpoenas for the witnesses had been issued.

Savage inquired of Conley why he could not let the case drop as the other officers interested in it were willing to do. Savage went on to say that the head of the department was willing to have the case dropped, and in fact wanted it to be. Conley inquired whom he meant by the head of the department and Savage said he meant Chief Glass.

This assertion Conley said be did not believe was backed up by facts, but Savage insisted that Chief Glass had consented to let the case drop.

insisted that Chief Glass had consented to let the case drop.

Savage went on to say that ever since the time of his election there had been a deliberate effort on the part of the police to persecute his friends, meaning the "macs." In speaking of the matter Savage referred to the considerable number of that class who were arrested about three or four weeks ago.

"You are trying to job me," said Savage, "and I'll job you."

Conley asked what he meant by the term "job."

"You'll find out when the time comes," raid Savage, "whether I can job as well as you."

said Savage, whether I can joo as well as you."

Conley informed Savage that he (Conley) was an officer on duty, and, therefore, did not want to quarrel then. Without many further words, except to the effect that he might accommodate him later, Conley walked away.

It is also charged that Savage has openly made threats against other officers, for enforcing the law in cases involving his (Savage's) friends. It is reported in a way so authentic as to leave scarcely a

(Savage's) friends. It is reported in a way so authentic as to leave scarcely a doubt as to its truth that he has threat-ened to make Officers Long, Robbins and Ritch feel his wrath. Chief Glass is highly indignant over the statement made by Savage to Conley regarding him.

MRS. C. N. Smith and Mrs. C. C. Carpenter wish to announce that we will open hairdressing and manicure parlors January 1 in the Stimson Block, rooms Nos. 133, 134 and 135, where we will be pleased to receive the ladies of Los Angeles and vicinity.
